

IT'S NOT MY FAULT

VIDEO BRIEF

LYRICS

I don't wanna say how heavy my heart is
I was sat In the city
lost in the park
crashing the stars
Ouuuh
getting out of place
I needed the darkness
ouuuh
and out of the space
as I float tonight
Don't hold me

**It's not my fault
you're spinning the circle
you're making it hard like
ouhhh
Hey can you see anything
I'm tied up
In our lines
all night**

Hanging by a thread I hide till it's over
all these silhouettes
that dance on the walls
Watching us fall
Ohhh
From the inner state
I dive into nowhere
Swimming out of the shade
as I flow tonight
Don't hold me

**It's not my fault
you're spinning the circle
you're making it hard like
ouhhh
Hey can you see anything
I'm tied up
In our lines
all night
It's not my fault
you're killing it slowly
We're missing the start like Ouuh
I'm speaking my mind
I leave the horizon**

Don't try to treat this lightly
Like we
never even started
never even knew
let's try to leave this right here
like we always
have departed
Always had to chose
so Don't hold me

CONTEXT

This song is about coming out of a bad situation. Making it to the other side. Coming to the realisation that you need to leave something that is bad for you and finally feeling a glimpse of that sense of freedom you were missing after feeling pulled down and heavy for so long.
