

Empara Mi

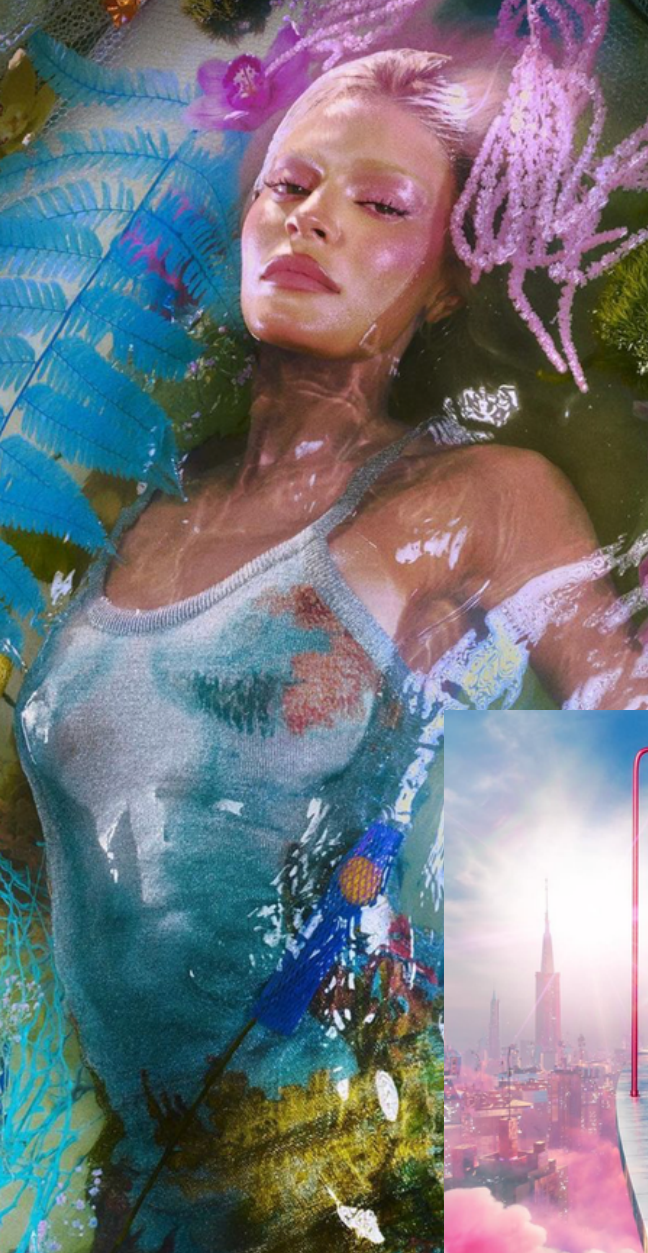

we have already shot some images which we are looking to transform into worlds as per the references on the next page.

The first two images (below) Are intended to be used as the cover for the album 'monsters & masochists. A horrible mock-up I made to show how I see it below the images.

Would love to be able to have 3d elements added, snakes, flying things, things to be wrapped around her

PAPER

TASCHEN

These next two images I see as being in a world of their own so will each need their own elements added ..
